Please bring my car around  
I've decided I'm leaving town  
I want to be gone by the time  
Everyone else arrives  
They'll see my truth  
I'm just more black coffee blues  
And if they decide to investigate my choice in drink I  
think it's  
Gone too far, and I don't know where you are  
I'm feeling like your leftovers  
Please turn loose my coat  
I'm going out for a smoke  
If I don't come back tonight  
Tell everyone I'm all right  
It's not my party  
Your friends are all strangers to me  
And if they decide to investigate my choice in drink I  
think it's  
Gone too far and I don't know who you are  
I'm feeling like your leftovers
