Its our average night out
I raise a toast too who gets it most
Its our average night out
Im the dreary sycophant
Shes so mad at me right now
She says go and bother someone else
She blows smoke in my face I dance she looks the
other way
Someone get me out of this place
Lovers bite, lovers scratch, lovers shout, some lovers
match
Lovers spit, lovers hit, lovers sweat, some lovers split
Lovers pry, lovers fight, lovers cry cause loves suicide
Its our average night in
Shes reading, Im staring
Its our average night in
Shes metamorphosizing
Shes so scary to me now
Its turning into something else
The thing is looking back at me and it sees a sloth in
it's misery
Someone get me out of this cage
Lovers bite, lovers scratch, lovers shout, some lovers
match
Lovers spit, lovers hit, lovers sweat, some lovers split
Lovers pry, lovers fight, lovers cry cause loves suicide
Its an average ending
Checking calls on the phone
Its an average ending
Im the pilot drone
The monsters have all changed now
Im missing things I shouldn't be
These plastic scenes are boring me no lover keeps my
sanity
Someone put me back on my stage
Lovers bite, lovers scratch, lovers shout, some lovers
match
Lovers spit, lovers hit, lovers sweat, some lovers split
Lovers pry, lovers fight, lovers cry cause loves suicide
