The nurse is on her knees  
Doctor is a junky  
Intensitys incredible  
With feelings of an animal  
So much to adore can't take in anymore  
What a way to go you say  
Well solid kid keep your head  
Or else she just might wind up dead  
We give into  
The things we crave  
It crashes down  
Like a tidal wave  
Cutting off the circulation  
Its time to say good-bye to this one  
What a way to go you say  
Well solid kid don't loose your head  
Or else he just might wind up dead  
What a way to go you say  
Well solid kid keep your wits  
And by the end of this day well all be rich  
Liposuction, augmentation, brow lift and a  
dermabrasion  
Rhinoplasty, mastopexy, calf implants and  
brachioplasty  
And now for some sex appeal  
Don't forget the chemical peel  
Never had to go to school  
Just bop pills and cut up fools  
What a way to go you say  
Well solid kid keep your head  
Or else that thing might wind up dead  
What a way to go you say  
Well solid kid don't loose your wits  
And by the end of this day well all be rich
