Pull me down. Pull me down, down to you. Pull me down. Pull me under. Tear me down. Cut me down. Here I lie dilapidated.

You are the place in my mind where there's resolution.   
ÂiFortitude, a will to survive, clarity, sÃilveme, por favor!

Flames Insidious and untamed, blazing this cold and rotting corpse. Why? If you are God, why are we this way? Â¿Si usted es el amor, why this immense pain?

Why me?

Break my body. Wound me through and through. Will I ever be good enough for you? You can say what you want to about me. I really don't care.

Bleeding through this torment, I've become psycho.

Why?

I have seen the end of time, stood eye to eye with death. You will see the end of life. stand your ground to the end. Give back. Give back. Give back my sanity. Come back. Come back. Come back to me.

Hope for a better day.ÂiHope, sÃilveme, derme fuerza!
