"The Application Of Force"

Visit "[The Application Of Force](#)" on [MotoLyrics.com](#)

I don't know what else to say; just go away. I don't know
what else to do; I have to get away from you.

Break off the pressure. Break out of depression.
Break away. Break away from you. Break away.

I need some space. You better back off now.
I need some time to unwind. Don't plead your case.
You better back off now or I'll explode like last time.

It's all a haze. Who is to blame? I need a chance to
process this tension from your never ending rants.
Don't plead your case. You better back off.
Or I'll explode like last time.

Break off the pressure. Break out of depression.
Break away. Break away from you. Break away.

I need some space. You better back off now.
I need some time to unwind. Don't get me wrong; I'll be
here in the end. Where I'm weak you are strong; who
cares who's right or wrong? The last time we went head
to head I crossed the line with what I said. I'm sorry I
don't think like you; I'm sorry I don't get over it. The last
time we went head to head you crossed the line with
what you said. I'm sorry you don't think like me; I'm
sorry you don't get over it.

Just get over it, now! Just get over it. Break off the
pressure. Break out of depression. I need a break from
you. Break off the pressure. Break out of depression.
Break away. Break away from you. Break away. Break
away from you now.
