Boy you know you want me you just don't know how to  
get me yet, but you don't have to try! I'm caught in that  
perfect heart of yours, you like my faded holey jeans,  
you have a black and white picture of me! Boy is it a  
Coincidence that my x is your best friend? He sent you  
that black and white picture of me in my faded holey  
jeans! You like the way my eyes turn from brown to  
green,the way my hair is blonde, you think i'm the best  
girl in the whole school, you just haven't told me yet!
