Well all the things that you said to me
And all the lies that you made
We both know that your dead
What ya did is a name in bed

We both know that it wouldn't last
Go to far go to fast
Then you act like you really care
Then your gone your not there

Lets lie

The world can beat you more
And all you ananimals
And its like your threw with living
Lets lie because my head is spinning

Lets lie cause you know I know
Lets lie to your shadow
Then you act like you really care
Then your gone your not there

Lets lie
