Through the darkness
You're my light to find the place
Where I can hide
When it's cold
You're my blanket to cover me
When I'm scared
You're my bravery

Your every thing I need
When I'm alone you're the voice that I
Hear your everything to me
You're the love of my life

You're the light to my darkness
Your everything that I hold dear to my heart you're my
life
You everything I ever wanted
You're my light through this darkness
When it's cold
You're my blanket to cover me
When I'm scared
You're my bravery
You everything I ever wanted

Your every thing I need
When I'm alone you're the voice that I Hear
