I like the treetops cause they're reaching just like me  
And I'm tied up in knots like the brambles and the  
weeds  
I am the rooster in the morning  
You can hear me cockadoodling  
Yeah, oh, ooo...

I like the people standing on the street  
Cause they are dumb faced  
Dumb faced just like me  
They're asking what we are supposed to do  
We've got our left foot in the right shoe  
Oh, what to do, yeah, ooo...ah-ya-ya

I wear my ball cap to hide my big eyes  
And you wear your black dress to hide your big thighs  
Oh, baby, baby I'll lose my ball cap

Well only if you expose your loose fat

Oh don't you know that beauty is only skin deep  
Well baby, baby come on and skin me  
I like the big'ins only cause they make me look real thin  
Yeah

I like the tree tops cause they're reaching just like  
And I'm tied up in knots like the brambles and the  
weeds  
I am the rooster in the morning  
You can hear me cockadoodling  
Yeah, oh, ooo...
