

Mother Mother "Bright Idea"

Visit "[Bright Idea](#)" on MotoLyrics.com

I woke up to a lightbulb; every little thing is possible;
I woke up to a feeling; every little thing has meaning;
Now I'm gonna use my two hands; I'm gonna move a
mountain;
I woke up to a lightbulb on; every little thing is possible
now:
Love is a bright idea; Love is a brilliant plan;
I built my life around a bright idea;
I built my life around the love that I've found.

I woke up to a new day; every little thing gonna go my
way
I woke up to a perfect thought; Every little thing in a
perfect spot
Now I 'm gonna use my own voice; I'm gonna sing the
song of my choice
I woke up to a lightbulb on; everything is possible now:
Love is a bright idea; Love is a brilliant plan;
I built my life around a bright idea;
I built my life around the love that I've found.

I'm gonna use my two feet; I'm gonna walk to my own
beat
I woke up to a lightbulb on; every little thing is possible,
hey!
Love is a bright idea; Love is a brilliant plan;
I built my life around a bright idea (yes I have);
I built my life around the love that I've found.
