CHEWING GUM

Holiday is just the day for me,
Then just the days for all,
To get some resting,
Dreamy on the bed,

Memories, the day Iâ'm chew with you,
Those days we still in love,
It's kept me blurry,
Pending in my brain,

Then times...have brought us here today!
Then time...left sad memories

Now...
You have the happy life dear,
Don't want to meet me again!
All my life I feel so sad

No...
Don't asking 'bout feeling!
You know its very hurts
I love you everyday
