### **CORPORATE ROCK SUCK**

I never think you got the future,  
Living young than getting normal,  
Know ignore this old tradition,  
All those fears in their decision,  
Leave it out the moderation,  
Pouring such their regulation,  
Now I do out,  
Prepare a revolution,

I don't need wide screen television,  
Don't need rising in illusion,  
Do need lies in revelation,  
Don't need hype in 'tale a vision'

I take it out for federation,  
Now they think that we got the future,  
Leaving young like getting nomad,  
Now I knock the revolution,

I don't need wide screen television,  
Do need lies in federation,  
Don't need lies in revelation,  
Don't need wide big scream,  
Don't need rules and regulation,  
Don't need A...

Ouch, this is why they 'corp.'  
Corporate rocks always sucks.

They call its "A REVOLUTION"

Corporate rock sucks!
