FLOWER POWER

I hope you understand, that we won't be the same,
Like first time I met you, I don't know what to said,
I realized my fault, while I'm still here with you,
You only want my love but I can't get it start,

When I look into your eyes, I see that shining light,
I give you chocolate rolls, one day before Valentine's,
Then if we meet again, I won't deny those chances,
I hope could stay with you, I wish can marry you,

CHORUS:

I can't deny all my feeling is for you,
I know it,
I know it,
I know it,
I know it,
Yeah, I know you have the same feel too
