Another party with the same kids  
Another night with the same drinks  
I need to find myself a new chick  
I need to kiss a set of new lips

She's gotta be something new to me  
Fresh face, someone new to please  
So come on, come on girl, just you and me  
Oh come on girl, just you and me

This kind of girl makes it rough, makin' it rough  
Holding our breaths while we touch

She won't kiss and tell but this isn't hell  
She got that name, it all seem like a game  
How she moves so well, I won't call this hell  
If I had to guess I'd say we have a mess you could sell

And how am I supposed to think  
With her hands all over me  
Telling me the right things  
Ever so distracting

She's gotta be something new to me  
Loose ends but no signs of strings  
So come on, come on girl, just you and me  
Oh come on girl, just you and me

This kind of girl makes it rough, makin' it rough  
Holding our breaths while we touch

She won't kiss and tell but this isn't hell  
She got that name, it all seems like a game  
How she moves so well, I won't call this hell  
If I had to guess I'd say we have a mess you could sell

She's makin' it harder, harder to breathe  
I'm gettin' weaker, so pull in the strings

The lights are all off, there's no one around  
We've both lost our minds and nowhere to be found  
It's gettin' hot, I'm not saying this is hell

But I swear this girl's a mess you could sell

She won't kiss and tell but this isn't hell

She got that name, it all seems like a game

How she moves so well, I won't call this hell

If I had to guess I'd say we've got a mess you could sell
