I'm taking, taking all of my time
I'm dodging words, but she's saying the right lines
She made me, made me oh so crazy
But this time I feel like I'm doing something right

It made me sick to think about
Everything you put me through and how you left
without
(Saying goodbye) And if it's really over now
Then you can walk away and it would be the last time

This is the end
Of you and me
And everything I used to be
Back then it meant something
But you're living a lie, you just can't hide from me

You had me hanging on your last word
And now I'm feeling a little less than trusting
You had me wishing we were something
But left me here with a whole lot of nothing now

This is the end
Of you and me
And everything I used to be
Back then it meant something
But you're living a lie, you just can't hide from me

Love is a luxury
She said "I'd rather be in love than dead"
But now it's her, oh God now it's her
She's the type of girl who makes love... hers

I'm taking, taking all of my time (taking my time)
I'm dodging words but she's saying the right lines (the
right lines)
She's made me, made me, oh so crazy (I'm going
crazy)
But this time I feel like I got it right

(1, 2, 3, 4, 1)

This is the end
Of you and me
Everything I used to be
Back then it meant something
But you're living a lie, you just can't hide from me

This is the end (this is the end)
Of you and me (whoa oh)
And everything I used to be
Back then (this is the end)
It meant something (yeah)
You're living a lie, you just can't hide from me
