Eroticism churns the seed,  
An attempt to satisfy our lustrous mentality,  
With intent to bear life,  
magnetism in it's purest form.  
I crave the arousing scent,  
A tickling sensation controls my brain,  
My attempt to share with you,  
what is rightfully ours.  
Day of Conceiving  
Day of Conceiving  
Day of Conceiving  
Day of Conceiving.  
I, I, I....  
Day of Conceiving  
Day of Conceiving

Day of Conceiving  
Day of Conceiving.  
An animalistic sensuality,  
That backbone in the gift of life,  
well disguised by all humanity,  
a tetanus seed released  
Day of Conceiving  
Day of Conceiving  
Day of Conceiving  
Day of Conceiving.  
I, I, I....  
Day of Conceiving  
Day of Conceiving  
Day of Conceiving  
Day of Conceiving.  
Life, life, life....
