

Magnetic Man "Crossover"

Its way to hot outside
.. cant trust anyone
You've had a long hard ride
And the days hardly began
You've got nothing to lose
They took it all while you looked away
I know you paid your dues
Do you need somewhere to stay

Chorus:

I could out your every wrong to right
I will be your sanctuary tonight
Crossover and come inside
Crossover and come inside
I'm the only friend you'll need to know?
Give me all your troubles never ...
Crossover and come inside
Crossover and come inside

Too many crooks and thieves
They will take you for every cent
Well done to your beliefs
They will guide you through the trench
I know your heart is pure
Your embrace is river wide
Do you need a place to crash
Do you want to come inside

Chorus x3
