Electrify my body  
And you're makin' me feel  
Like I'm so electric  
Everything you do is makin' me  
Blow Blow Blow

Don't know what to do about it  
Can't see how I'd live without it  
All I wanna do is just  
Know Know Know

You suffocate my mind  
And now my atmosphere is crowded  
And you being here is makin' me  
Blow Blow Blow

You penetrate my space  
And now I'm looking out of place  
And you're makin' it hard for me  
I need air!

(Chorus)

I

Breathe

Air!

(X4)

Kaleidoscope colours that you bring to me  
You're freaking out my energy  
I'm losin' and you're makin' me  
Low Low Low

Don't know what to do about it  
You and I can't live without it  
All I wanna do is just  
Go Go Go

You smother my emotions

Now I'm drowning in your ocean  
And I'm runnin' and I'm feeling like  
I don't care

You penetrate my space  
And now you're looking out of place  
And you're makin' it hard for me  
I need air!

(Chorus)

I

Breathe

Air!

(X4)

Makin' my body so erratic!  
... Just makin' my body so erratic!

Give me air!  
I need air!

You penetrate my space  
And now you're looking out of place  
And you're makin' it hard for me  
I need air!

(Chorus)

I

Breathe

Air!

(X4)

Ya makin me air
