(feat. Julie Berthelsen)
I stayed up late last night
I thought of the days gone by
The picture of you and me
Is not what it used to be

Something happened along the way
Little changes in our game
Somehow everything's brighter now
My heart knows the reason why

We can't hide from love any longer
It can't be denied with you I'm alive

[Chorus]
I used to think that love was escapable
Can't see why we should be divided
Isn't life just unbelievable
Now I'm coming home to you

I'm beginning to understand
The way that I feel inside

So how could we let it be
When there's so much more to see

We can't hide from love any longer
I know what I feel I know this is real

[Chorus]

Love is not escapable
Love is not escapable

I used to think that love was escapable
Can't see why we should be divided

[Chorus]
