(Jascha Richter)

We died in pain we are the saints
and we've come down to Earth
We are taking over now
We'll be ruling the world

The rich and poor in peace and war
no matter good or bad
You should all be shaking now
There is no running away
this is the Judgement day

You have had a million years
You have made a billion tears
Heaven will make it tough
Heaven's had enough

Chorus:
Oh no dear Lord
please let us live just a little bit longer
Oh no dear Lord
just give us one more day

We died in pain we are the saints
now we'll make it rain
We'll make the second flood
There is no sailing away
this is the Judgement day

You have had a million years
You have made a billion tears
Heaven will make it tough
Heaven's had enough

Chorus:
Oh no dear Lord
please let us live just a little bit longer
Oh no dear Lord just give us one more day
