(M. Minx, H. Der Hovagimian)
Your love is the key to my life
An inspiration (an inspiration)
Of all that is right
Your love is the key to my life
An inspiration (an inspiration)
A new sensation, ya ha
Let's just try to put away the past
If we work real hard we can make it last
I won't pressure you to change your mind
You've got all night so take your time
You know that this love is true
You bring me joy with everything you do
And just like a fire that burns real bright
My real emotions I can not hide
Your love is the key to my life
An inspiration (an inspiration)
Of all that is right
Your love is the key to my life
An inspiration (an inspiration)
A new sensation, ya ha
Your love is the key
Your love is the key, is the key to my life
Your love is the key
Your love is the key
You should know you're always on my mind
'Cause love like this is so hard to find
I've sailed oceans and the big blue sea
Finally found someone can this really be
I know you're the only one
I never thought that I could meet someone
Who brings me joy the way you do
You captured my heart with love so true
Your love is the key to my life
An inspiration (an inspiration)
Of all that is right
Your love is the key to my life
An inspiration (an inspiration)
A new sensation, ya ha
Your love is the key
Your love is the key, is the key to my life
Your love is the key

Your love is the key
There's something in my mind
I've been searching for the longest time
And you outta know by now
Your love is the key to my life
Your love is the key, Your love is the key
Your love is the key
Your love is the key to my life
An inspiration (an inspiration)
Of all that is right
Your love is the key to my life
An inspiration (an inspiration)
A new sensation, ya ha
Your love is the key to my life
An inspiration (an inspiration)
Of all that is right
Your love is the key to my life
An inspiration (an inspiration)
A new sensation, ya ha
Your love is the key, ya-ee-ya
Your love is the key, is the key to my life
Your love is the key, ya-ee-ya
Your love is the key, is the key to my life
