"Closer"

Bliss in my skull. Caught at a distance I won't tell.
The void is blooming. Earth revolution do me well, oh
yeah.
Frog-eyed dreamer, primal freaks, and little spies that
know no good.
All in closer, 2-ton murder. They turn it up in me.
Do as I said, do cum again. My pretty friends, yeah,
cum on my spirit.
I'm not smaller. Was that Satan in my bed?
In the corner of everything unseen I see.
Frog-eyed dreamers, primal freaks, and little spies that
know no good.

Want it closer, 2-ton murder. Turn it up in me.
Her 11-ton tongue stretches long to present,
Reality an insane poem.
While everything else in between is just veleda and...
I save the pain, swallow the pain.
It takes me away, yeah.
Said all the way, yeah all the way. It lifts me away into
what's mine.
Do as I said, yeah cum again. My pretty friends, cum on
my spirit.
I don't fear it--my spirit.
