Bone I do. Lie and bleed. Loveshined dogs sick to feed.
Mama matrix most mysterious mind.
Driving the nails deeper into my prime.
I'm sucking the mine narrow idiot's head.
Into my belly I bury these dead.
Arms to the sky, loaded so high. Oh goddess shine. All
in my...
Idol you, you idol me. Whose eyes are those bleeding
free.

Out of my hole-maker, it ain't my time.
I become God in the octupi eye.
Tongue on the toad, blowing smoke in my face.
Right to my jaw, slap reptilian brain.
Arms to the sky, Lord it's so high. Oh goddess shine. All
in my...mind!
