"In The Way Eye"

Bow down above me, come crawl inside.
Face painted zootie, dust on the lines.
Into the blood then like Jesus Christ.
Doing my head in black sugar skies 'till I die.
In the way eye feel about you.
You left me drifting, feeling funny, blind.
Hits unfamiliar. It starts to grind.
I found my reasons, but lost my way.
From heaven pissing I flood the stream, all I need.

{Repeat Chorus}

All dull without you, all dead without you.
Now freedom's easy 'cause I got no brain.
Smoke of the angel brings a different rain.
Earth all wide open, alive and high.
Never felt so good losing my mind, say good-bye.

{Repeat chorus}

Out of the way eye feel about you.
