Calling all cops and Autobots
I hope that you're still there
Saving victims from the wreckage of our wild affairs
Such wild affairs

Copy all cats and acrobats
I know you don't play fair
Slinging sickness through the atmosphere
Without a care, without a care

Drowning all dolls in concert halls
The curtain hits the cast
They parade like perfect ponies
But it never lasts, never lasts

Sever all ties to satellites
That broadcast worthless words
You're extrapolating nonsense
And it really hurts, it really hurts

When I'm awake
I make the same mistakes they make
When I'm awake I can't escape

When I'm awake
I make the same mistakes they make
And everything just falls apart

Calling all cops and Autobots
I hope that you're still there
Saving victims from the wreckage of our wild affairs
Such wild affairs

Suffer all teens in Dramamine
The coast is not yet clear
Every continent has chaos
And we need you here, we need you here

When I'm awake
I make the same mistakes they make
When I'm awake I can't escape

When I'm awake
I make the same mistakes they make
And everything just falls apart

(Calling all cops and Autobots)
And everything just falls apart
(Calling all cops and Autobots)
And everything just falls apart
(Calling all cops and Autobots)
And everything just falls apart
And everything just falls apart
