Hey, I forgot
Tripping into traffic,
Hypnotized by the Northern Lights
Dead end block
Static on the ceiling
I got sucked in

Hey, present tense
Slipping on the silence
Like a cloak made of rainy nights
Common sense
Barking out the order I got sucked in

I don't know what I'm doing
The uncertainty is looming
Every heart rents a lonely room
This fever is forever
I'm not ready when they sever
You from me, it will be too soon

Hey, I forgot
Damage to the daughters
And the sons who will never learn
If I get caught
Promise me you'll run
And you won't stop

Hey, digging in
Cut me so I'll feel
Like there's a chance that I won't return
Digging in
Hold me here forever
Please don't stop

I don't know what I'm doing
The uncertainty is looming
Every heart rents a lonely room
This fever is forever
I'm not ready when they sever
You from me, it will be too soon

The shock slips in
The ship sails on
I curse myself and everyone
You will leave no name
You will leave no trace
Just a question mark
And an empty space

Yeah, I forgot
Hold me here forever and don't stop
Yeah, digging in
Tangle with yourself and you can't win

Yeah, I forgot
Hold me here forever and don't stop
Yeah, digging in
Tangle with yourself and you won't win
