I feel like I'm changing my mind
Far too many times
I've just begun
I've just begun

Happy, when I'm sad and blue
Heavy, when I'm holding you
I'm down to one
I'm down to one

Cold, cold yes it's cold
When your heart can't feel you all alone
Cold, cold yes it's cold
When your heart can't feel you all alone

Light my candle burning out
So few winds are roaring about
My seasons turn
My seasons turn

Cold, cold yes it's cold
When your heart can't feel you all alone
Cold, cold yes it's cold
When your heart can't feel you all alone

Ooooh, yes it's cold
Ooooh, yes it's cold
Ooooh, yes it's cold
Ooooh, yes it's cold
