"Under The Same Sun"

I guess we'll find another time
Let go of a simple crime and
leave it all behind

I hope you change your mind

Everyone's under the same sun
Noone's ever shined brighter than what you've done
Every night I dream of how you mean
Oh so much to me

Maybe nights like this will stay another day
The reasons wash away
Get back to another time
See the ways I must be blind
and leave it all behind

I hope you change your mind

Everyone's under the same sun
Noone's ever shined brighter than what you've done
Every night I dream of how you mean
All that much to me
