

Moon & Her Mother "Radio"

Visit "[Radio](#)" on MotoLyrics.com

Play something I know
And call it rock and roll
You make my heart shake
It's ready to explode

Calm down right you are write it down and send me a
card
Come by check me out I am writing songs for the soul

Raise your hands up high
We're together you and I
Don't waste any blood
We're rocking out of love

Calm down right you are write it down and send me a
card
Come by check me out I am writing songs for the soul

Where did you go
We called your name across the radio
Where did you go
Yeah we called your name across the radio

And I'm doing all right across the radio
And I'm feeling all right across the radio
And I'm doing your work across the radio
And I'm doing my worst across the radio
