

Moon & Her Mother "Strong City"

Visit "[Strong City](#)" on MotoLyrics.com

We don't play by the book
That's what Michael said
It started off fine with words like love
Ended up on the floor

Jesus take me away
And I want to believe

Biding my time biting my tongue
Isn't that how it's always done
But I was a prophet of coffins and blood
You were the hand of God

Jesus take me away
And I want to believe

Michael don't let me down again I can't take it
Michael don't let me down again I can't take it
A witness job is a precious job so don't fake it
A woman's job is a perfect job so don't fake it
Michael don't let me down again I can't take it

Jesus take me away
And I want to believe

We don't play by the book
That's what Michael said
