I don't know why you have to go on treating me this way
You've got me discusted with all these busted little
games you play
You want me to back down
Ain't gonna do that now cause I'm not afraid
Now I can't stay get out of the way
I'm leaving here today

Push me and I don't like that
Stop that cause I'm gonna fight back
Listen to me when I say!

You're never gonna hurt me again
And there's no way to take back all those things you did
You'll never hurt me ever again
No matter what you say
I'm gonna get away

That is the last time that you'll ever put your hands on
me
Don't say that your sorry
Don't make things harder than they have to be
You can keep your problems and your drama
That shit I don't need
All I can say is that's the way that this has got to be

Push me and I don't like that
Stop that cause I'm gonna fight back
It doesn't matter what you say!

You're never gonna hurt me again
And there's no way to take back all those things you did
You'll never hurt me again
No matter what you say
I'm gonna get away

From all the things that I regret
And all the things I can't forget
For everything you put me through
I'm leaving here because of you

You're never gonna hurt me! Hurt me!

You're never gonna hurt me again
And there's no way to take back all those things you did
You'll never hurt me again
No matter what you say
I'm gonna get away

You'll never hurt me again (ever again)
You'll never hurt me again (ever again)
You'll never hurt me again (ever again)

No matter what you say
You're never gonna hurt me hurt me
