Don't leave me here so lonely
can't you see my heart is crying
Oh baby you're the only
if you know
I am dying

Don't take away my heaven girl
don't leave me here alone
Don't take away girl all your love
your heart is just my home

Everybody needs a lover
and I'm missing you so
And for me girl
there's no other
make your dreams come true

Refrain:

Everytime you go away
don't you know my babe what our night can do
Everytime and everyday
oh you made me crazy and I swear it's true
Everytime you go away
I can't wait to hold you in my arms it's true
Everytime you make my day
I will take the stars of the sky for you

If there's no tomorrow
oh my heart will break forever
Don't leave me here in sorrow
and baby can't we stay together
My heart is beating just for you
until the end of time
I show you what my love will do
baby if your mine

I'm a dreamer
feel the fire
and I'm missing you so
and for me girl
your desire
make your dreams come true

Refrain:

Everytime you go away
don't you know my babe what our night can do
Everytime and everyday
oh you made me crazy and I swear it's true
Everytime you go away
I can't wait to hold you in my arms it's true
Everytime you make my day
I will take the stars of the sky for you

YewÃ¡h Yeah Yeah oh no no
Everytime..you go away..please let me go away

Refrain:

Everytime you go away
don't you know my babe what our night can do
Everytime and everyday
oh you made me crazy and I swear it's true
Everytime you go away
I can't wait to hold you in my arms it's true
Everytime you make my day
I will take the stars of the sky for you

Refrain:

Everytime you go away
don't you know my babe what our night can do
Everytime and everyday
oh you made me crazy and I swear it's true
Everytime you go away
I can't wait to hold you in my arms it's true
Everytime you make my day
I will take the stars of the sky for you
