Oh no no

Vers 1:

Behind close doors  
behind brown eyes  
there are many tears  
and so many lies  
Behind the walls  
behind the sun  
there are many waves-we're walkin' on  
Oh I know for sure  
that i broke your heart  
but I apologize  
don't break a part

Refrain:

You are the one  
come and take me in your arms  
and wherever you will be  
you were always in my dreams  
You are the one  
with your love I'm feelin' strong  
and wherever you will go  
there's a way I follow you

Vers 2:

You say goodbye  
You walked away  
I lost my love  
that's hard to say  
Between your tears  
I know I'm wrong  
I swear to God

I can't be strong  
Oh I was not true  
I lost you my heart  
and I want you back  
I never treat at a part

Refrain:

You are the one  
come and take me in your arms  
and wherever you will be  
you were always in my dreams

You are the one  
with your love I'm feelin' strong  
and wherever you will go  
there's a way I follow you

You are the one  
come and take me in your arms

Refrain:

You are the one  
come and take me in your arms  
and wherever you will be  
you were always in my dreams

You are the one  
with your love I'm feelin' strong  
and wherever you will go  
there's a way I follow you

Oh yeah oh no no no

You are the one
