"Time To Bodycount"

Visit "[Time To Bodycount](#)" on MotoLyrics.com

Staring through the eyes of despair
Listening to the music of the streets
Do you really think it is fair
Or is it just pile of shit

Do you wanna see the hate (HATE !)
Take a look around
You wanna see the hate (HATE !)
Take a look around

Shit on the streets,
Children on the pavement -
Everything goes as always

Hush, motherfucker, don't break the silence,
Take the rhythm of the violence

It's time to bodycount in anytime in any town

It's time to bodycount in anytime in any town

Cities are ruled by rubbish
Police don't give a fuck
We are just human garbage
For those who hide in the dark
