Hold all that is, for one day it shall be lost
All precious moments, fade with the rest
Time travels quick, when theres no one to share
Forgotten thoughts, fade as quick as EXITUS!
Below and beneath all that I see, I feel the exitus
Below and beneath all that I see, I feel the exitus
I cant escape, this thought and fear
Chasen me down, throughout my career
Of what this, indefinite, unclear
As we relapse into, constant EXITUS!
Below and beneath all that I see, I feel the exitus
Below and beneath all that I see, I feel the exitus
Why won't this heartache, just leave me to be
No hesitation, among the dieng breed
Are we scared to face, the truth or the lies
Do to our self repressed, thoughts of EXITUS!
