I just feel like thinking today
I don't want to talk too much
it's hard to explain

sometimes I am a machine
sometimes I am a man
sometimes I'm just a little wave
of a big chaotic plan

time for the self, time for the strength
all sense aside, what is belief
time for the self, time for the strength
it won't decay, it's a prodigy

sometimes I am a machine
sometimes I am a man
sometimes I know just who I am
sometimes I control
sometimes I'm in shreds
sometimes I know, but I'm wrong again
