

Mindless Faith

"Singular"

Fabricate identities of individuality
But we are not
We are just reflections

It took so long to see
To deconstruct the fallacy
Disengage from the self-deceptions

Singular
Singular
We are connected, we are singular
Singular
Singular
We are connected, we are singular

This is more than humanity

We're only forms of energy
In a multitude of interconnections

Expanding complexity
We must counter our entropy
Intergrate and start a new direction

Singular
Singular
We are connected, we are singular
Singular
Singular
We are connected, we are singular
