Yes

I'm the one who believes in having fun

Don't you ever be too shy?

See me face to face

tell me you will take my case

I could fall for you - no lie.

'Cause I know you wanna go where the bad boys go

And you wanna do that stuff they do

Baby

we could have a good time

too.

Don't

don't

don't be so shy

girl

Don't

don't

don't look so cool

Don't

don't

don't be so shy

girl

Make a move - you can find the groove - make a move!

Don't be shy.

You don't need to hide all the passion deep inside

Don't you look your love - uptight.

Get your green jeans on

bring your dancing shoes along

'Cause we're going out tonight.

And I know you wanna stand where the band is hot

And you wanna feel the crowd get high

Baby
all you gotta do is fly.
