you're appointed to phrase the truth  
they plunshed into darkness  
they discontrolled agglomerations of subsequent  
evolution  
are now wrapped in a veil of lies  
vanity laziness immobility a reign of sorrow  
they sliced this planet to a void of emptiness  
this closing downsale means the downfall exorcise  
this progressive search of draw voices proclaim an  
empty cover

humanless mechanical actions conceive no more  
they conclude the contract of life deep down and calm  
beyond outright  
outrage vacuum arise selfcaged  
you may see an open gate anchor an emergency  
deadline  
whiled chained opinions wade  
through mud convenience navigates mortality
