stubborn time is what  
we don't need they advised us unique be content  
with the state you're in  
I bear a grudge  
I did not want this  
I'm not to blame  
I'm not in charge irreversible  
I bear a grudge  
I bear a grudge  
I will not fail this test of time until

I see behind the curtain of lies opposition  
passed away since we have left our path  
I will not fail this test of time until  
I see behind the curtain of lies opposition  
passed away since we have left our path
