leave me in the lurch  
it is just indifferent be free from care  
accompanied by solitude  
I'm drowned in silence  
I won't hear a word from you or anyone who knows me  
I'm scared  
I'm broken  
I go to seed but  
I hide my desperation leave me in the lurch  
it is just indifferent be free  
from care accompanied by solitude  
without having achieved anything  
I long for my salvation  
weakened sad anger fills me up to the point of  
discouragement

leave me in the lurch  
it is just indifferent be free from care  
accompanied by solitude  
I'm drowned in silence  
I won't hear a word from you or anyone who knows me  
I'm scared  
I'm broken  
I go to seed but  
I hide my desperation leave me in the lurch  
it is just indifferent be free from care  
accompanied by solitude  
be free from care
