Never thought I feel such passion  
Like I feel for you right now  
But you gave me so much reason  
To put all my fears aside

I'm feeling so special  
Is taking me over  
I'm Feeling so special  
Now you're in my life

You got something special  
That I can't get over  
Now you're in my life  
We're flying so high

Wanna kiss you, touch you, hold you  
I can't seem to get enough (No, no, no, no)  
What we had was instant attraction

Now it's all about real love

From the first time I saw your eyes  
Something just moved me deep inside  
I just have to have you in my life  
I'm feeling so special  
I'm feeling so special

I'm feeling so special  
Is taking me over  
I'm Feeling so special  
Now you're in my life

You got something special  
That I can't get over  
Now you're in my life  
We're flying so high
