

Mourning Sign "A New Life"

Visit "[A New Life](#)" on MotoLyrics.com

A little grunt of pain, I close my eyes, Is this agony or
rapture

Caress me embrace me, why don't you love me when
I'm so cold

Chimera - Don't you like me

You offered me a new life and with new consciousness
you tried to possessed me

Do you call this new life, Is emptiness beautiful, I don't
like you so fuck off!

Promises and lies

Where's the truth

Promises and lies

Who the fuck are you

Promises and lies

Leave me alone

A little grunt of pain...

You offered me a new life
Among the children unwise
You thought I would just join in

Someone caressed me
With love possessed me
It sure did open my eyes
