You can scorn me if you want to  
I would do same again  
Put yourself back in the same place  
Where you found my pain

What a dirty night it has been - what a dirty life it has  
been  
She spat blood and cursed at me

What breaks me is your impudence  
Now it's on the knees of the gods  
My angel works for my damnation  
Sleeping still on the sea-bed

What a dirty night it has been - what a dirty life it has  
been  
She spat blood and cursed at me

There's no need for anyone to know  
Who forced my hand - I'm not real

All and all I'm one - never seen the sun  
There's no need for anyone to know... well, I know

Will my wish be unheard  
Demons riot disturbed  
You think I am unkind  
You leave a bad taste in my... mind

Shall I open your eyes  
Crush your puny white lies  
Never dreaming I'm blind  
You leave a bad taste in my... mind

You can scorn me if you want to  
I would do same again  
Put yourself back in the same place  
Where you found my pain

She spat blood and cursed at me
