Am I happy
Have I got friends
Turn around and face me
It's only possible when untouched by me

Crimson deathmask featureless - I can't see it
Floating before my unconsciousness - no, I can't see it
Is this the end of nothingness - now I see it
Dwell in darkness loveless - loveless

Am I happy
Have I got friends
Turn around and face me
It's only possible when untouched by me

Shut your eyes, close your mind
To the skies, typified
Misconcieved - you're wrong

Misconcieved - I'm right
Misconcieved - you're wrong
Misconcieved - I'm right

here I am, you can't hurt me
No way to get through to you

Subcutaneous parasite
Get your own fuckin' life

I can drown in your lies
Through my skin, fades the light
Misconcieved - you're wrong
Misconcieved - I'm right
Misconcieved - you're wrong
Misconcieved - I'm right

What do you want, I'm back again
Hello my friend, misbegotten
