

Mourning Sign "No Paradise"

Visit "[No Paradise](#)" on MotoLyrics.com

I felt the first pain searching in my vein
Thriving for my brain goodbye all that's sane
Effluents in my mind livid thoughts are vanished
My body dissolved into particles of dust

I'm floating in the sky, i don't longer want to die
Vivid colours exploding in my eyes
All i see is darkness, all i feel is void
I'm hearing my own thoughts my essence is not
destroyed

Immortality's essence is what i feel tomorrow
And by my guesses i won't feel the sorrow

All i see is darkness, all I feel is void

I'm hearing my own thoughts my essence is not
destroyed
Tranquillity surrounds I see a friend
Peaceful in my mind wasn't he dead

He leads me to a light it stings in my eyes
It burns in my soul don't be afraid
I laughed and I followed devoured by the light
And still I remember a memory of fear

Then my soul tears apart have I been deceived

Recallence of life is the only light
This is no paradise, is this hell
