Kiss me my little serpent, I descendent of Kain
My viper your my servant, Your venom intoxicates me

Let all the cowards go, Let heroes lead their way, Lets
make the desert bloom
Desertbloom

Wriggle around my heart, Squeeze me until I come

Let all the cowards go...

Erase these dark thoughts, Fertilize these lands, Make
me see bloom again
I thought our ships was burnt but you showed me I was
wrong

You showed me I was wrong
Yes, you showed me I was wrong

You were right all along

Erase these dark thoughts, Fertilize these lands, Make
me see bloom again
I thought our ships was burnt but you showed me I was
wrong

You showed me I was wrong

Thought I'd never see the day when the desert bloom
The blossom of all ignorance had foothold in us all
The day was closer than I thought I sure did wake a few
Someone of us relized but why didn't you

Kiss me my little serpent...
