Not anyone can take me where you took me - You
temptress

You temptress
I sense it and feared it
But why me, but why me

You look lovely but you look dead
I tear my eyes out my tears turn red
Never will I see never will I hear
I miss your trance in the fire dance

Good enough for me - You're a temptress
Cold enough for you - You're the temptress

You temptress
You temptress

I sense it and feared it
I must be godforsaken

You look lovely...

Do-you-hear-me calling you
I need a light to show me the way

Good enough for me - You're a temptress
Cold enough for you - You're the temptress

I am nothing but a game you play
I'm sane though I long for more
I am nothing but a game you say
I'm insane because I long for more
