

Mathou "Long Goodbye"

Visit "[Long Goodbye](#)" on MotoLyrics.com

It's a long goodbye
Bewildered and depressed
A long goodbye
Blinded and betrayed by a single world

It's a long goodbye
You'll walk your way alone
A long goodbye
Now take your broken wings and learn to fly

Restless dreams are guiding your way
Walls of love and hate
Broken flowers under your feet
Trampled down by your vanity I felt the weight

It's a long goodbye
Such a long way to survive
A long goodbye
Till you find your daybreak's end
A long goodbye
Till the night will dry all your tears

A goodbye from your childhood dreams
Of a christmas tree
A goodbye from your schoolyard's affair
From a flighty kiss
Your first night with her
