Metallic cocaine be-bop
sonic rainbow child
scizophrenia on the mainline
watch the bugs thrive on your hide

I need you like I need gangrene (x2)
Demon box (x3)

I saw you carve Love on your knuckles
but Madness never equals Style
more fun east of Eden
when inches turn to miles

I need you like I need gangrene (x2)
too rotten to ever be forgotten,
the afterlives secure, now go away!
Demon box (x3)

It was love said the father
It was pride said the wife
It was duty said the girlchild
but I know who held the knife.....

I need you
